Family

Tailored for the family law practitioner, the Family Law module provides easy to use, authoritative content, contributed by prominent experts in the field. Gain access to a collection of time-saving task-based precedents, checklists, and calculators. Easily search our three quantum databases which provide comprehensive coverage of awards from all common law jurisdictions on spousal support, child support, and matrimonial property. Advise clients and complete tasks on a variety of topics including:

- How to effectively draft pleadings, motion materials, facts, offers to settle, and domestic contracts
- How to properly complete financial statements, calculate income for support purposes, and determine equalization payments
- How to recognize and respond to situations of parental alienation
- The steps to take in advance of, and following case, settlement, or trial management conferences
- Using dispute resolution methods such as mediation, arbitration, parenting coordination, and collaborative practice
- The procedure to take to when a child is abducted
- How to deal with child protection issues
- How to prepare documents in assisted reproductive technology cases
