## QUICKCITE® SIGNALS

A QuickCITE signal appearing next to a case name indicates whether the decision has received positive, negative, cautionary, or neutral treatment in subsequent judgments. The signal is a summary of the annotation information available from the list of appeal proceedings and cases referring to this case, and it also provides a link to the corresponding QuickCITE record. Keep in mind that not every case has a QuickCITE signal.

A QuickCITE signal appearing next to a statute or regulation name indicates a QuickCITE legislation citator record is available.
