

Introducing ...

LexisNexis® QuickFind™ with Auto Link

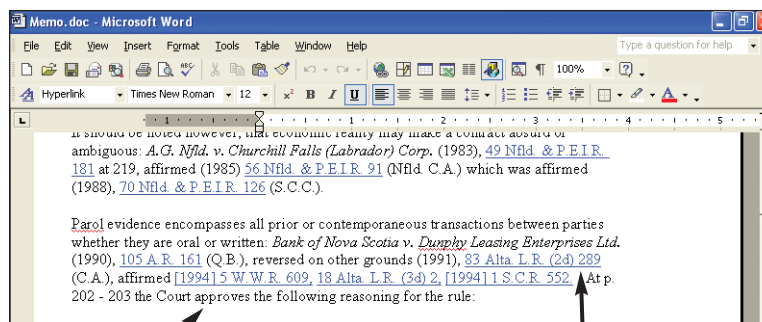

Add value to your organization's electronic resources with the *enhanced* version of QuickFind.

LexisNexis is pleased to introduce **LexisNexis QuickFind with Auto Link** — an enhanced version of the award-winning* QuickFind productivity tool that saves research time by **delivering case law to your desktop in seconds**.

QuickFind retrieves or notes up case law directly from citations in word processor documents, email messages, web pages, and other electronic sources. Link from citations to full-text decisions, case law summaries, and *QuickCITE*™ case citator records on the **LexisNexis® Quicklaw™** service** — and **save the time, effort, and cost** of searching for and copying cases cited in documents.

QuickFind now comes with an optional add-on tool called Auto Link — provided at no additional charge. Auto Link securely scans documents you submit for case law citations, and **embeds links** to the full-text decisions on Quicklaw. **Enhance the value** of your firm's memo banks and other electronic resources. **Increase your efficiency** by eliminating the need to exchange copies of cases cited in internal documents.

Law firm memo

Link to full-text case

LexisNexis QuickFind with Auto Link — it's your link to the law.

QuickFind recognizes citations for an extensive range of court decisions and a growing number of administrative tribunal cases — made available by the **leading provider** of Canadian court and board decisions for more than 30 years.

Find out more about QuickFind with Auto Link, or about how Quicklaw can make a difference in the way your firm or organization does legal research.

To learn more, please complete the form on the reverse.
