

Construction Law Module on LexisNexis® Quicklaw®

Get the resources you need to protect the rights and assert the interests of your clients in the construction industry.

Designed for construction law practitioners, the **Construction Law Module* on LexisNexis Quicklaw** gives you all the resources you need to:

- Gain legal insight into all aspects of construction, from property acquisition through financing and building
- Understand and interpret the complex terminology in construction law
- Apply labour law and employment law to the unique requirements of the construction industry
- Ensure bid compliance
- Understand the requirements of the procurement process
- Interpret contracts as between a subcontractor and a bidding contractor, and as between an owner and a contractor
- Institute a lien action and appoint a lien trustee

Expansive secondary materials selected specifically for construction law professionals

- Exclusive **leading Butterworths® construction law treatises** authored by recognized authorities and leading practitioners in the field of construction law, including:
 - *Construction Law in Canada* (Ricchetti and Murphy)
