#### Plus, gain these enhanced capabilities with Sanction 4:

- Save time with new keyboard shortcuts (hotkeys), including Ctrl-J to advance presentation items from right to left like turning pages in a book.

- Create copies of exhibit pages. Save as many copies of an exhibit page as you want and apply a different set of annotations to each copy.
- Set the default edge in the Tear Out tool, which is used to temporarily magnify one or more rectangular areas of an exhibit. Now you can change the default border of tear outs to a jagged or "ripped" edge.

- Gain better support for dual monitors to present evidence your way.
