

History View

View your entire search history from the past 90 days. You can open documents by type, such as QuickCITE records, or view all documents delivered (and even quickly resend them). You can also view your search history in a List view or as a graphical research map. Pick up interrupted research easily by going to your Research History/Research Map, and go back to your Search History to save useful searches to your Folders.

The screenshot displays the Lexis Advance Quicklaw History View. The interface includes a top navigation bar with the Lexis Advance Quicklaw logo, a search bar, and language options (English, Français). The main content area is titled "History" and shows a list of 105 search results. The list is currently in "List" view, with a "Research Map" option available. The first three items in the list are:
