

CaseMap Cloud

Superior Fact Management
and Case Analysis

Collaborative, intuitive, and accessible case analysis you can access anywhere, anytime.

CaseMap Cloud provides a collaborative platform for case organization, allowing you to build your theory of the case, illuminate patterns in your evidence, prepare your arguments, see your strengths and weaknesses, and be fully prepared to present a compelling case.

WHY CASEMAP CLOUD?

From the award-winning matter management tool CaseMap, comes our trusted fact management and case analysis solution – now available in the cloud.

Experience CaseMap Cloud with a live demo, request one today at:

LexisNexis.ca/[CaseMapCloud-Demo](https://www.lexisnexis.ca/CaseMapCloud-Demo)
or call **1-800-255-5174**

CaseMap Cloud assists you in building and organizing your case through:

Manage facts from intake through settlement or trial and see connections that might have otherwise been missed with **Fact Management**.

As new documents are entered, people and places are automatically found so you can easily link connections to facts through **Entity Recognition**.

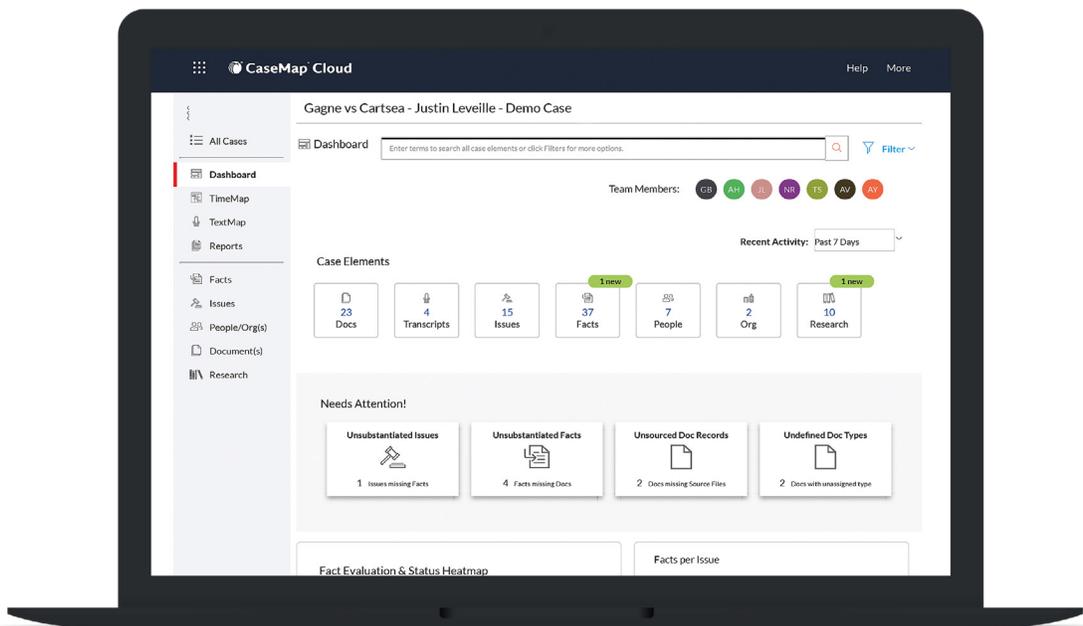

Save time by seamlessly constructing your case chronology and converting your timeline into a powerful visual aid with **Auto Timeline**.

Find key information from examinations, link exhibits, bolster your fact chronology, or cull key transcript messages with **Transcript Management**.

Conduct your research inside CaseMap Cloud with seamless access to the **Lexis Advance® Quicklaw® Research Service**.
