## Craft Your Most Persuasive Argument

With Context, you can uncover critical litigation intelligence to build better briefs and oral arguments using the specific language from previous cases, that has been proven to resonate with your court, or persuade your judge.

## Impress your clients with data driven insights

Ensuring you have the right data for your motion strategy ensures the best outcome for your client. Only Context Court Analytics brings to light the cases that supported a granted or deny ruling enabling you to:

- Identify the language a specific court cites most often – use that intel to craft compelling arguments, and avoid arguments the court has ruled negatively on in the past
- See how many cases like yours have been tried in a specific court, and review how that court has ruled on those cases and why
- Anticipate how a court will rule and determine the probability of success when filing or defending a motion

## Speak your judge's language

Make your most persuasive argument by using the language your judge wants to hear. With Context Judge Analytics you can:

- Know the specific language and cases your judge relies on to craft your most compelling argument
- Forecast how likely you are to prevail by knowing the grant and denial rates for over 25 motion types for your judge
- Have confidence in your arguments knowing the fellow judges your judge cites most often
