Quebec Content

We're continuing to strengthen our Quebec offerings with the addition of more than 45 high-priority documents, including:

- ▶ Popular precedents such as Share Purchase Agreements, Letters of Intent, and Confidentiality Agreements
- ▶ Practice notes covering share purchases, asset purchases, fiduciary duties, and more

To better support complex transactions, many of these Quebec precedents have been developed with multiple variants tailored to different deal types and legal considerations. These resources will also play a key role in the continued development of LexisNexis Protégé™.

We've also enhanced our limited partnerships coverage with two new variants of the **Limited Partnership Agreement** — a short form and one including carried interest — both of which will be featured in our upcoming **Limited Partnerships Resource Kit**.

Additionally, we've deepened our jurisdiction-specific content with eight new Alberta- and British Columbia-specific resolutions that reflect local concepts and corporate laws, ensuring greater precision and relevance for practitioners across Canada.

Employment

We continue to expand our French-language collection, including content developed specifically for the jurisdiction of Quebec. Notably, we've recently added:

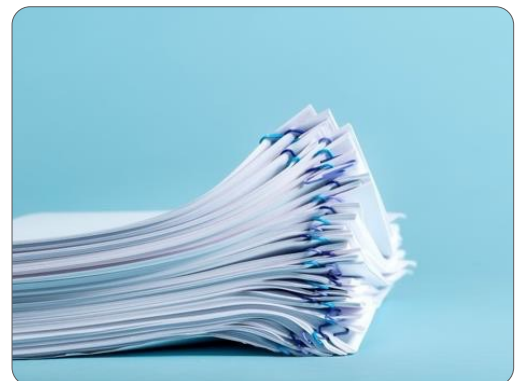

- ▶ [Liste de contrôle : demande en vertu de la Charte des droits et libertés de la personne \(QC\)](#) & [Liste de contrôle : défense à une plainte en vertu de la Charte des droits et libertés de la personne \(QC\)](#) — Checklists outlining best practices for lawyers representing employees who file human rights complaints with the CDPDJ, as well as for those representing employers responding to such complaints.
- ▶ [Plainte à la Commission des droits de la personne \(Discrimination au travail\) \(QC\)](#) & [Défense écrite \(discrimination fondée sur les antécédents judiciaires\) \(QC\)](#) — Precedent human rights complaints and defences addressing allegations of workplace discrimination.
- ▶ In addition to expanding our French-language content, we've transformed our Quebec-specific employment agreement precedent ([Contrat de travail](#)) into our first French-language automated template. Customers can now easily customize the document through a simple, user-friendly questionnaire — streamlining the drafting process and saving valuable time.
- ▶ All French content is available in the [French resource kit](#).
