ABOUT

We specialize in financial and administrative management of law firms. Our goal is to increase productivity and implement systems to manage your firm and increase your profitability. We can work with you to strengthen legal practice management so that your firm can reach its potential and move beyond your expectations.

We integrate our practice management philosophy to assist your firm in developing a practical and effective use of PCLaw®. We will work with you to increase profitability by capturing more billable time, improving your billing cycle and effectively managing your WIP, accounts receivable and collections. We also ensure you are LSUC compliant.
