Release Notes

http://help.lexisnexis.com/litigation/ac/sanction/SN4/release_notes.htm

Feature details:

Drag and drop import

You can import items via drag and drop. For more information, see: [Importing Exhibits](#), [Importing Media](#), and [Importing Transcripts](#).

Rotate pages and documents

You can rotate individual pages and entire documents. For more information, see: [Rotate Pages and Documents](#).

Delete all annotations or exhibit stamps

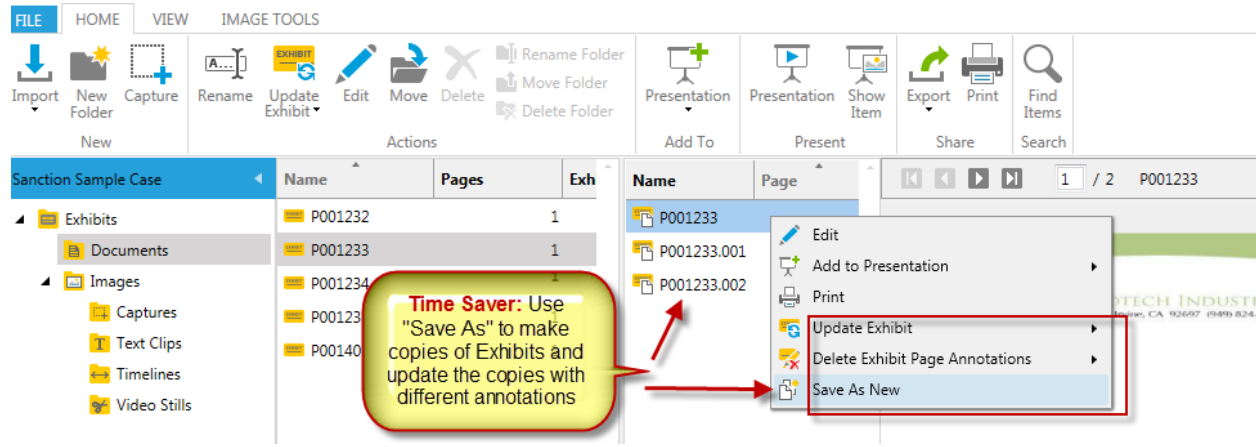

You can delete multiple annotations and exhibit stamps at the same time. For more information, see: [Annotation Tools](#) and [Exhibit Stamps](#).

The screenshot displays the LexisNexis Sanction software interface. The 'IMAGE TOOLS' ribbon is active, showing various tools for document manipulation. A red box highlights the 'Delete Annotations' dropdown menu, which includes options for deleting all exhibit page annotations, all excluding stamps, and only stamps. Another red box highlights the 'Rotate Right' and 'Rotate Left' options in the 'Image' section. A yellow callout bubble with a red arrow points to the 'Delete Annotations' menu, stating: "Time Saver: Delete multiple Annotations and/or Exhibit at once". A second yellow callout bubble with a red arrow points to the 'Rotate Right' and 'Rotate Left' options, stating: "Convenience: Rotate Images". The main workspace shows a document titled 'Sanction Sample Case' with a list of exhibits (P001232, P001233, P001234, P001235, P001401) and a preview of a letter from Phillip Hawkins. The status bar at the bottom indicates 'Items: 5' and a zoom level of '73%'.

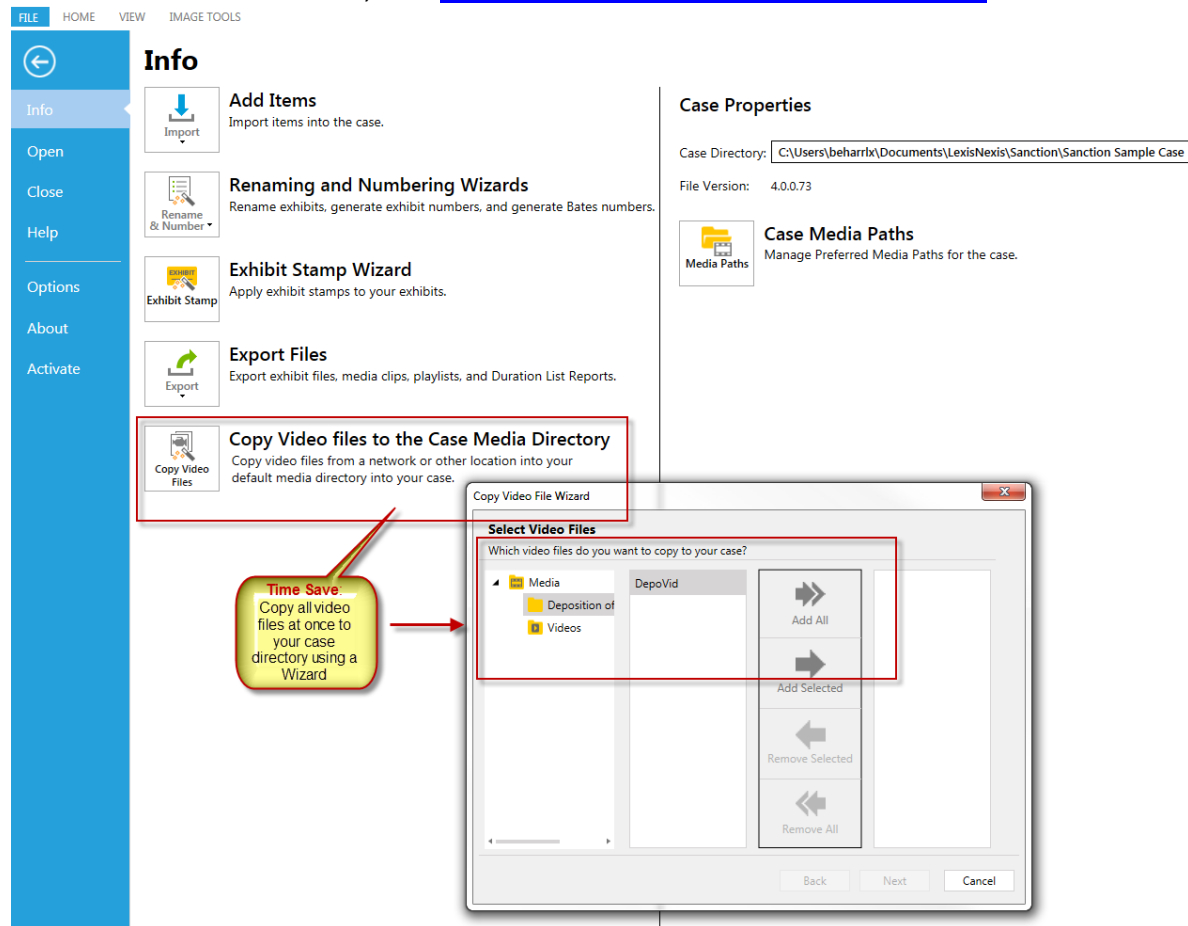

Create copies of exhibit pages

You can save as many copies of an exhibit page as you want. Then you can apply a different set of annotations to each copy. For more information, see: [Save as New Page](#).

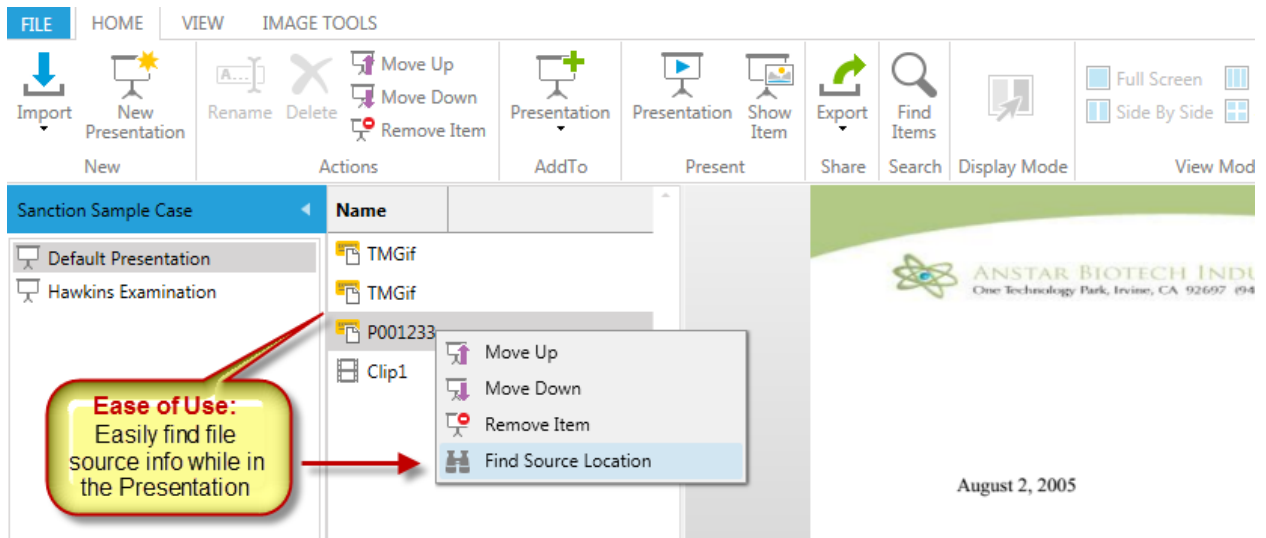

Copy video files to the case folder

You can run a command that copies to the case folder all of the video files referenced in your case. For more information, see: [Copy Video Files to the Case Media Folder](#).

Find source items for items in a presentation

After you add an item to a presentation, you can easily locate the item in your case folders. For more information, see: [Find the Source Location of Items](#).

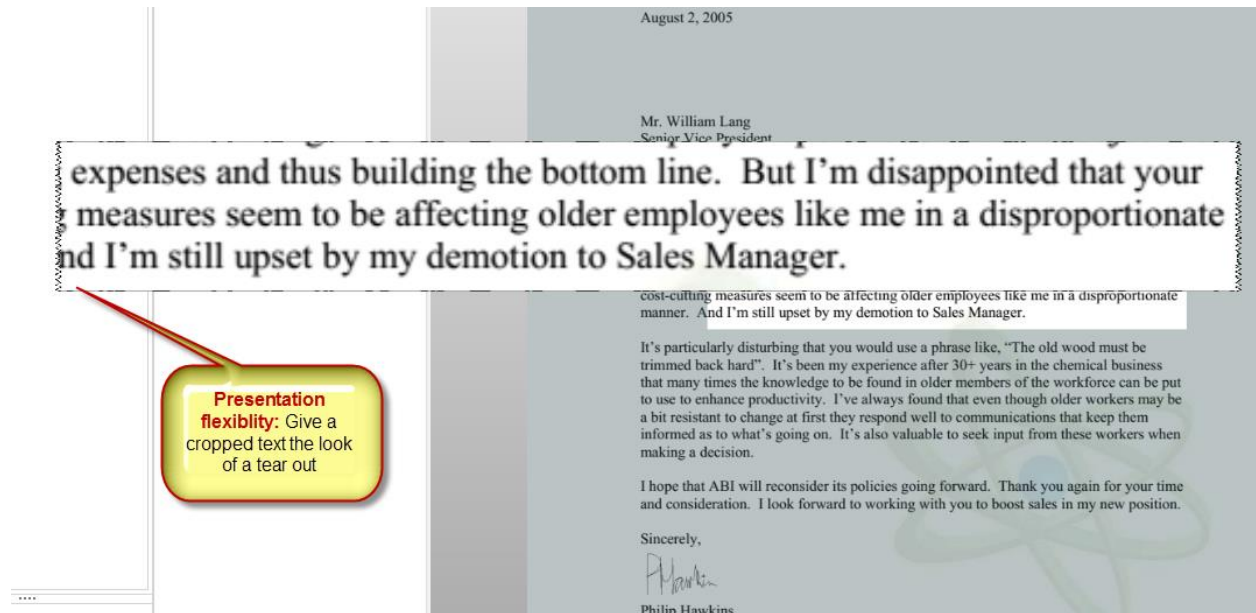

Font options for transcripts

You can customize the font that is used to display transcripts. For more information, see: [Set Transcript Viewer Options](#).

The screenshot shows the LexisNexis interface with a blue sidebar on the left containing menu items: FILE, HOME, VIEW, IMAGE TOOLS, Info, Open, Close, Help, Options, About, and Activate. The main window displays the 'Sanction Options' dialog box. The dialog has a title bar with a close button (X) and a subtitle 'Change the settings for Transcripts'. It is divided into sections: 'General' (with a list icon), 'Exhibits' (containing a 'Synchronized Transcript Options' section), 'Transcripts' (with a checkbox for 'Display Time Stamp'), and 'Presentations' (with a yellow highlight color swatch and a 'Highlight Color' label). The 'Transcript Text' section is highlighted with a red box and contains 'Font Settings' with three dropdown menus: 'Courier New', '14', and 'A'. A yellow callout bubble with a red border points to the 'Transcript Text' section, containing the text: 'Improved Readability: Customize transcript fonts and size'. At the bottom right of the dialog are 'OK' and 'Cancel' buttons. On the right side of the main window, there is a 'Case' panel with 'Case D' and 'File Ve' visible, and a 'Media' icon.

Default edge of Tear Out tool

You can change the default border of tear outs to a jagged edge. For more information, see: [Annotation Tools](#).

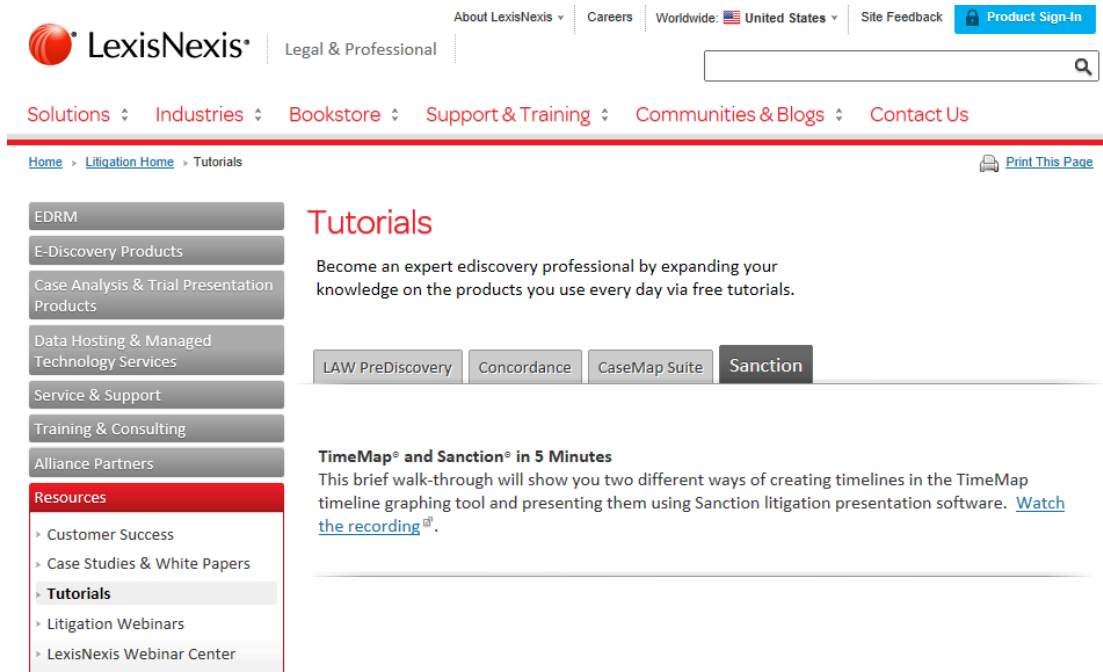

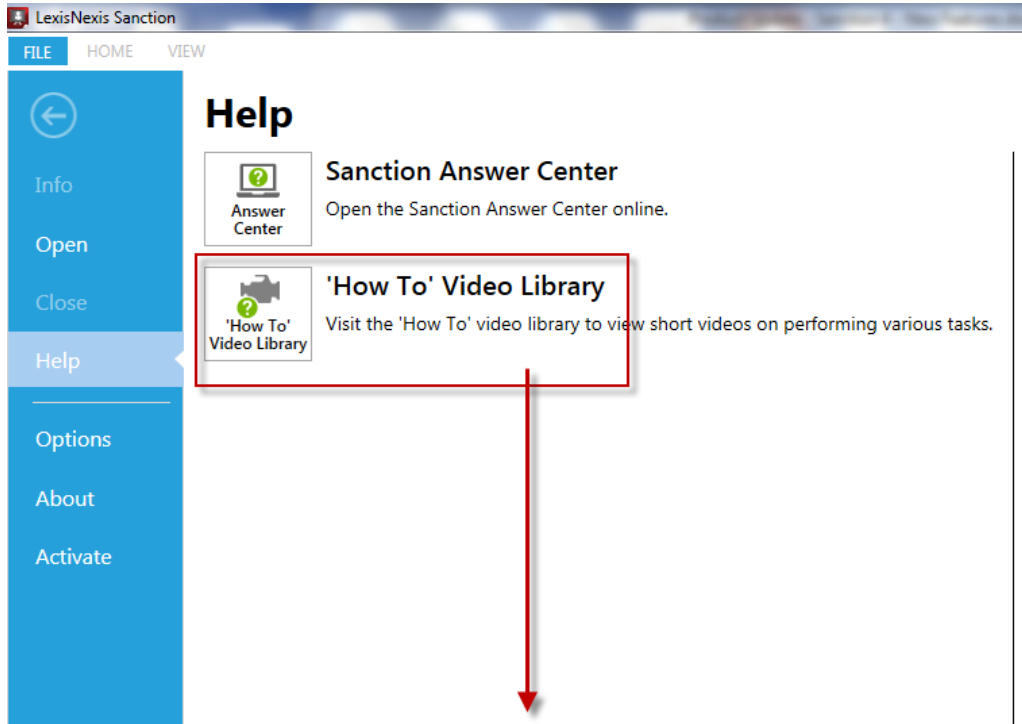

Column layout

You can adjust the column width, move columns, and sort by column for exhibits, and media. For more information, see: [Customizing the Layout](#).

How To Videos

How To Video' Icon & Text to the File/Help section. This will open Sanction help videos.

New keyboard shortcuts

Numerous new keyboard shortcuts (hotkeys) have been added. See: [Keyboard Shortcuts](#).

Installation

For current users to upgrade new users or for 30 day trials go to this link:

<http://sanction.com/downloads/>

Note the following when preparing to install Sanction.

- Install Sanction to your local computer. Installation to a server, mapped drive, or network share is not recommended.

Backward Compatibility:

- You can install Sanction 4 alongside Sanction II.9.
- Sanction 4 may not be installed alongside Sanction 3.x. Therefore, prior to installing Sanction 4 remove any existing installation of Sanction 3.

System Requirements

Minimum System Requirements

- 2 GHz or faster 32-bit(x86) or 64-bit(x64) processor.
- 2 GB RAM
- Approximately 1 GB of free disk space on the system drive.
- XGA (1024 x 768) or higher-resolution monitor with 256 colors.
- Microsoft Windows 7® or higher - 32-bit(x86) or 64-bit(x64).
- The Microsoft® Framework version 4.5.1 is required.
- Windows Media Player 12 is highly recommended to support media file playback.
- Microsoft Expression® Encoder 4, Service Pack 2 is required for Media Clip export feature.

Sanction 4.1 requires the following components:

- Microsoft® .NET® Framework 4.5.1 Web. This component is required for Sanction to run. If this is not already installed on your computer, Sanction will prompt you to install it as the first step of the installation process. To learn more about this component, visit the [Microsoft .NET Framework 4 \(Web Installer\)](#) page at Microsoft.com.
- Microsoft Expression® Media Encoder 4, with Service Pack 2. This component is required for Sanction to export clips and playlists. Sanction provides this as an optional component during the install process. To learn more about this component, visit the [Microsoft Expression Encoder 4 with Service Pack 2 \(SP2\)](#) page at Microsoft.com.

New Activation:

- You can run an unregistered version of Sanction **for up to 30 days** without purchasing a license for it. After that time, you must activate your installation by purchasing a license for it and then registering the license.

A prompt to activate Sanction prior to the end of the grace period

Prior to activating Sanction customers will need to have the following information ready:

- **A registration name, a registration ID, and a Product ID.** This information is provided by LexisNexis when a customer purchases the license.
- **An activation key.** After customers purchase the license, LexisNexis sends an activation key to you in an email message.

Customer Support

For more information on activating and technical support for Sanction

- Call **877.301.0344** to speak to a **technical support** agent
- Hours of operation are **Monday through Friday, 9:00 AM to 9:00 PM Eastern Time.**

Known Issues

Current known issues Include:

- Preferred Media Paths - In Sanction you can add Preferred Media Paths to a case and Sanction will search those directories for the media files in the case. You can optionally configure Sanction to search the subfolders of Preferred Media Path by selecting **the Include Subfolders option**. If this option is enabled, you must have access to all subfolders. **If you do not have access to any of the subfolders, the search for the media file will fail.**
- Tear Outs in Presentation Mode - Presentation Mode keyboard shortcuts are not available when the focus is in a Tear Out window. When you have a Tear Out window displayed while in Presentation Mode, **for the Presentation Mode keyboard shortcuts to work, you must select the Presentation screen to give it the focus.**
- Fast User Switching - **Only one instance of the Sanction application can run on a single machine.** Two or more users cannot simultaneously run Sanction on the same machine. Close the Sanction application prior to switching users.
