

## History: Use The Map To Expand Your Research

The screenshot displays the Lexis Advance Quicklaw interface. At the top, there's a navigation bar with 'Lexis Advance Quicklaw', a 'Browse' button, a language dropdown set to 'CA', a search bar containing 'breach of contract', and buttons for 'Search: Everything', 'English', 'Français', 'Client: -None-', 'History', and 'More'. Below this is a 'History' section with a dropdown menu for 'Actions'. The main area is titled 'Research Map' and shows two search results. The first result is for 'breach of contract' (01 Mar, 2019 • 01:42:45 PM, Client: -None-). It features a graphical trail with icons for 'breach of contract', 'CA Cases' (51195), 'Federal' (3758), and a date range '01 Jan 1980 to 31 Dec 2003' (1492). The second result is for 'age discrimination' (01 Mar, 2019 • 01:33:02 PM, Client: -None-), showing a trail with 'age discrimination' and 'CA Cases' (2538). On the left, there's a 'Narrow By' sidebar with options to search within history, reset the map, and filter by client, date, and trails. On the right, there are buttons for 'List', 'Research Map', 'Compare Search Results', and 'Find Similar Documents'. Red callout letters A through H are placed over various UI elements to indicate their functions.

- A** Get a step-by-step graphical depiction of your research. Click Research Map to identify explored versus non-explored paths, possibly uncovering other relevant results.
- B** Learn more about map icons and graphical trails.
- C** Add your History Map to one of your Folders or create a new one.
- D** Share your History Map via email, download it or print it.
- E** Compare two or three search results to find common documents — and perhaps expand your research. Click a map search icon and select search to compare results.
- F** Find similar relevant documents by clicking a document icon in your map and Select document to find similar. Then click Find Similar Documents. This is a fast way to compare relevant documents and to find ones you may not have reviewed yet.
- G** Filter by client, date, etc. and search for words included in your map. You can also exclude specific searches/ trails on your map or change the trail order. Click Reset map to default view to clear filters.
- H** Click a map icon and choose to re-run your search or save a search to a Folder.
