

Tip Sheet

Note Up with QuickCITE

Noting up is a process used to verify if a case is still good law. The process helps you determine whether the case has been reversed on appeal and if any subsequent court decisions distinguished or overruled it.

QuickCITE Case Citator is a source within Lexis Advance Quicklaw that assists you in answering those questions. In QuickCITE, you can explore the case's appellate history, examine how it was judicially considered in other cases that cited it, and access secondary sources that referenced or analyzed the case within a specific context.

- Ⓐ Treatment signals appear beside the name of each case, so you can easily see how a decision has been judicially considered. Clicking the treatment signal will direct you to the **QuickCITE Citator** record. See the last page of this tip sheet for QuickCITE signal legend.
- Ⓑ Select the links under *About this document* to quickly navigate to a specific QuickCITE report section:
 - History of Case
 - Citing Cases
 - Commentary Referring to this Case
- Ⓒ Click on the **bell icon** to create an alert. The alert will notify you whenever any revisions are made to the QuickCITE citator record.
- Ⓓ Select **QuickCITE Signal Help** to review the meaning of each treatment signal.

The figure shows a list view of citing cases. At the top, there are tabs: Citing Cases (selected), Learn more, and a settings icon. Below the tabs is a search bar with 'Narrow By: AB' and a clear button. To the right is a 'Cases (27)' summary and a 'Sort by: Date (newest first)' dropdown. The main area displays a list of 27 cases, each with a checkbox, a thumbnail, a title, a date, and a jurisdiction. A red circle labeled 'G' highlights the settings icon. A red circle labeled 'J' highlights the 'Clear' button. A red circle labeled 'H' highlights the search bar. A red circle labeled 'I' highlights the 'Court' filter.

Cited	Koutsikaloudis v. Maple Leaf Academy Ltd.	[2021] A.J. No. 587 Locus Para 45	2021 ABPC 136	2021/4/29
Cited	Harco Enterprises Ltd. v. Knelsen Sand and Gravel Ltd.	[2021] A.J. No. 464 Locus Para 171	2021 ABQB 263	2021/4/7

- (E) Use **Graphical View** for Citing Cases section to see how your case has been judicially considered. The table can filter cases by Court/Year/Jurisdiction or by treatment types.
- (F) Click within the table or on row/column labels to filter the list of citing cases.
- (G) Use **List View** if you want to apply multiple filters for citing cases.
- (H) The **Search Within Cases** filter enables you to narrow the list of cases by keyword. If necessary, you can use search connectors within the search box.
- (I) Click on additional filters to further narrow down your citing cases list.
- (J) Click the **Clear** button to remove filters.
- (K) Use the **Locus Para** feature to go directly to the relevant paragraph in the citing case where the case you noted up is discussed.

QUICKCITE® SIGNALS

A QuickCITE signal appearing next to a case name indicates whether the decision has received positive, negative, cautionary, or neutral treatment in subsequent judgments. The signal is a summary of the annotation information available from the list of appeal proceedings and cases referring to this case, and it also provides a link to the corresponding QuickCITE record. Keep in mind that not every case has a QuickCITE signal.

A QuickCITE signal appearing next to a statute or regulation name indicates a QuickCITE legislation citator record is available.

SIGNAL	SUMMARY	EXPLANATION
	Case citation information	A case citation information signal indicates a case citator record is available, but no known history or treatments. Select the signal to view the case citator record.
	Positive treatment	A positive (green) signal indicates the decision has positive history (affirmed, judicial review denied, or leave to appeal refused by a higher court) or positive treatments (followed or followed in a minority opinion of by subsequent court).
	Cautionary treatment	A cautionary (yellow) signal indicates the decision has been subsequently distinguished by a subsequent court.
	Negative treatment	A negative (red) signal indicates the decision has a negative history (judicial review allowed, reconsideration allowed, reversed, quashed, or varied by a higher court) or negative treatments (not followed or questioned by a subsequent court).
	Neutral treatment	A neutral signal indicates the decision has neutral treatments (mentioned, explained, cited, or cited in a dissenting opinion) or has history (abandoned, abated, leave to appeal granted, reconsideration denied, related proceeding, same case, or supplementary reasons by a subsequent court) where the citing court does not comment on the case. Note: A neutral signal is also given to cases that have been added to Lexis Advance within the past 3 business days, but which have not yet been assigned a QuickCITE treatment.
	Legislation citation information	A legislation citation information signal indicates a legislation citator record is available. Select the signal to view the legislation citator record.
