Lexis+
Canada

On Lexis+ Canada, there are a variety of tools and resources available to help save you time and make your legal research more effective. Below are some of the most popular features available.

INTEGRATED USER EXPERIENCE

Lexis+ offers superior research, practical guidance, data-driven insights, and bill tracking in one complete experience that is intuitive and easy to use. Easily discover what the law says and what to do about it, all in one place.

LEXIS ANSWERS®

With Lexis Answers you can resolve legal questions and find citable authority directly within the document where the answer is found.

With Lexis Answers you can:
- Ask questions using natural language and review the answers directly within your results list.
- Review up to 10 cases that directly answer the question.
- Seamlessly transition from research to resolving issues.

BOOLEAN SEARCH TREE

Boolean Search Tree allows you to construct effective Boolean searches to find the most relevant results using visual illustrations of how the Boolean search was applied.

With Boolean Search Tree, you can:
- Quickly find which terms returned the most results.
- Rerun searches with your requisite terms for ultimate precision.
- Solve the problem of minimal search results
- caused by a single term included in your search.

SEARCH TERM MAPS

Search Term Maps makes it easy to zero in on relevant resources faster. Using visual illustrations, you can easily spot patterns and dense concentrations of your search terms to get to the most relevant results.

With Search Term Maps you can:
- Use colour coding to preview top passages in and identify on-point documents right from the results list.

- Quickly move between passages where search terms are concentrated.
- Easily spot patterns in a document, and pinpoint where key clusters of your search terms exist

EDIT SEARCH

Quickly modify your search throughout the research process while keeping your existing filter selections.

INCLUDE OR EXCLUDE

Include or exclude specific keywords and phrases in your post-filter searches, and choose whether you search within the full document, case name, citation, or headnotes.
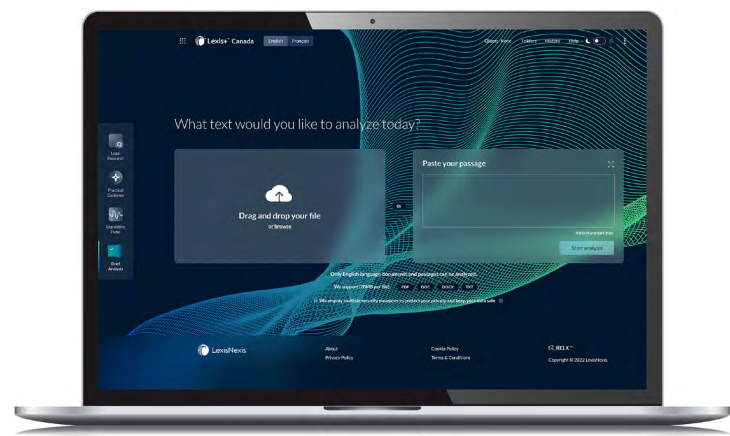

BRIEF ANALYSIS

The Lexis+ Brief Analysis tool helps you strengthen your legal documents using targeted research recommendations based on the citation patterns and legal concepts found in your document.

With Brief Analysis you can:
- Analyze a new or existing brief to find newer or stronger authority to optimize your strategy.
- Thoroughly double-check researched briefs to verify nothing is missing or overlooked.
- Review an opponent's document to discover weaknesses.
